## LETTER TO THE EDITOR

In 1938 I accepted the Chairmanship of an informal committee which volunteered to gather facts about pronounced flights of Snowy Owls in North America. The purpose of the work was to provide an index to events in the Arctic rather than to contribute to an understanding of causes which is essentially an Arctic problem. It seemed fcasible to gather data from over the whole of settled portions of the continent where Snowy Owls appeared on their regular flights. Three brief reports materialized and these were published in *The Wilson Bulletin* (55:8–10, 59:74–78 and 61:99–102).

In working as a volunteer committee, with round-robin procedure on a continental basis, delays are inevitable. Loss of data en route is also possible. Material on the flight in 1949-50 vanished completely and could not be traced. Since the Snowy Owl cycle is short and since we have found that major flights in the east and west do not necessarily synchronize, a transcontinental, volunteer committee has not been able to keep up with the owls.

The purpose of this communication is to allay any impressions readers of the *Bulletin* might have that Snowy Owls are permanently grounded. It also affords me opportunity to thank all the busy men who served on the now defunct committee, and to assure them that if the committee's difficulties are not attributable to its Chairman, then perhaps the undertaking was, simply, not feasible.

ROYAL ONTARIO MUSEUM OF ZOOLOGY AND PALAEONTOLOGY, TORONTO, AUGUST 25, 1952.

The Proceedings of the Xth International Ornithological Congress, held in Uppsala in June 1950, is now available for purchase from Professor Sven Hörstadius, Zoologiska Institutionen, Uppsala, Sweden. Book dealers may order it from Almqoist and Wiksell, Uppsala, Sweden. The price is 35 Swedish crowns (\$6.75 U.S.).

The volume covers the proceedings of the Congress, and some 83 papers presented before the meetings under four main headings, viz., Evolution and Systematics, Migration and Orientation, Behavior, and Regional Faunas. The book is paper bound, in attractive form, with 622 pages (531 in English, 28 in French, 93 in German), 1 color plate, 30 photographs, 125 maps and diagrams, and 46 tables. The edition includes only copies for the members of the Congress and a small number in addition for sale. Those interested in purchasing should order without delay as the number available is limited.
